Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is in response to the Response filed March 10, 2003.

This Office action contains a new requirement for Election/Restriction, therefore the previous requirement mailed February 10, 2003 is withdrawn. The Office apologizes for any inconvenience to Applicant.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 22-28, drawn to an isolated nucleic acid molecule corresponding to SEQ ID NO:3 or encoding SEQ ID NO:4, classified in class 536, subclass 23.6, for example.
- II. Claims 29-43, drawn to a non-naturally occurring plant that ectopically expresses a nucleic acid molecule encoding a BI-1 polypeptide corresponding to SEQ ID NO:4, and to a method of increasing the resistance of a plant to biotic or abiotic stress by ectopically expressing a nucleic acid molecule encoding a BI-1 polypeptide, classified in class 800, subclass 298, for example.
- III. Claims 44-46, drawn to an isolated polypeptide corresponding to SEQ ID NO:4, classified in class 530, subclass 370, for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different

Art Unit: 1638

functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation and different functions. The isolated polypeptide of Invention III is structurally and functionally distinct from the isolated nucleic acid molecule of Invention I.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the isolated nucleic acid molecule of Invention I can be used in a materially different process of using that product, such as a hybridization method.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, their recognized divergent subject matter, and the requirement for different areas of search, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
